

## viewneo® Diwa

### THE DIGITAL CHALKBOARD FOR GASTRONOMES

Almost nowhere else do the offers change within a day as frequently as in the catering trade. From breakfast to lunch and from happy hour to romantic candlelight dinner.

In many places, the menu still has to be changed manually at each table. This costs time and money. This is exactly where the viewneo Diwa can help you save money. Thanks to the connection to the cloud, the content of each display can now be adjusted in just one step. Digital and as easy as writing on the blackboard.

#### One Diwa, many benefits.

- ✓ Automatic, time-controlled change of content
- ✓ Individual or group control
- ✓ Secure management via app - without cables
- ✓ Extremely long runtimes without recharging
- ✓ E-Paper Display: Good readability even in direct sunlight
- ✓ QR codes for payment or digital menu cards
- ✓ High quality design, individual variations

**With menu card holder or with high-quality shakers.**  
Underline your brand.

## Very easy to use

Via Diwa App for IOS and Android, every authorized employee can easily change the displays or set time schedules. Then **everything runs automatically** and much time is saved.

Ready-made **design templates** simplify the work. Just adjust the text and price - done. If you like, you can create your own **individual layouts** on the computer in viewneo Designer and then simply select them later using the app.

If you like to paint with **real chalk**, you can easily transfer your own artwork with the app to any Diwa.

# Technology packaged in an elegant design

As valuable as the time you save

High quality robust aluminium frame.

Energy-saving **e-paper display** for permanent use and good legibility, even in strong sunlight.

**Whether one or hundreds,** content from the iPad or viewneo CMS can be transferred to the device via app.

Connected to the cloud via **WIFI, Bluetooth and mesh network.**

**High quality stand** made of solid wood in various designs.

**Own branding**

## Packed with new possibilities

✓ **Automatic upselling** through connection to **cash register systems.** The guest has ordered fish, the Diwa shows the matching white wine. All by itself.

✓ **Contactless payment.** The customer scans the QR code and simply leaves. Connection to various payment systems such as Paypal.

✓ **Digital menu** by QR code

✓ **Covid-19 Registration:** If the guest scans the QR code on the display, he can enter his data directly into his smartphone. DSGVO compliant and secure.

## Variants
